\*The formula for lecture class time is 50 minutes per week per credit hour. Instructors teaching during time slots that include extra minutes beyond this formula may utilize breaks to equalize the time spent in class.

\*1-Contact hour or 2-Contact hour classes should be scheduled as a subset of the options available for 3-Contact hour or above classes; they should NOT overlap multiple time slots.

A 1-Contact hour classes meet one time per week for 50 minutes.

A 2-Contact hour classes meet one time per week for 1 hour and 50 minutes, or two times per week for 50 minutes.

For any number contact hours that is not covered in the uniform class times, the Scheduling Specialist can assist with instruction times that align with the uniform class times.

\*Only classes that conform to the Uniform Times will be entered into the system. Any exceptions to the Uniform Times will require a justification from the Department/Program Chair to be submitted for approval from the Dean and the Associate Vice President Academic Success & Advancement.
